

Minutes of the WG4 meeting - 2017-03-14

Present: Fred Klaessig, Nina Jeliazkova, Shahzad Rashid, Araceli Sanchez, Camille de Garidel -Thoron, Lucian Farcas, Axel Mustad, Egon Willighagen

Regrets:

Time: 15 CET

Next meeting: April 11

Previous Minutes

- Minutes of the WG4 meeting - [2017-02-14](#) APPROVED
- Minutes of the WG4 meeting - [2017-01-17](#) APPROVED (F.Klaessig talk)

Updates

- NanoSafety Cluster new coordination survey
 - The new Coordination Team of the Cluster is opening a SURVEY to gather comments and additional ideas to the proposed Action Plan. The Survey is open until March 17. 2017: <http://tiny.cc/nscap>
The link to the Survey is also to be found on the NSC website:
<https://www.nanosafetycluster.eu/news/216/66/NSC-Action-plan---survey.html>
- Projects
 - NANOreg data/documents release (CC BY-NC-SA 4.0) ~ 15.03.2017
 - <https://search.data.enanomapper.net/nanoreg/>
 - eNanoMapper deliverables online:
<https://zenodo.org/search?page=1&size=20&q=enanomapper&type=publication>
 - [ACEnano](#): initiating the tasks on ontology and building the knowledge-base, including data and protocols (focused on nanomaterials characterisation)
 - Camille: Final consortium meeting of Prosafe (Rome, 1-2 March) ; expected deliverables about streamlining data acquisition, collection and data management (the report should be done on June)
- Nanoinformatics Roadmap (update by Fred K.)
 - Awaiting individual sections (chapters) for later consolidation
 - nanoWG series on the draft milestones & pilot projects section that I drafted with the intent to identify issues to be resolved during the consolidation phase. Have had good response once there is a rough draft available.
 - Consistency & overlap with the Regulatory Research Roadmap will be considered
 - Andrea Haase views the mid 2017 due date is still possible
 - Next meeting: next week Wednesday (note summer time differences!)
- Exposure data (Task Force?)
 - Minutes of the WG4 meeting (exposure data) - [2017-01-30](#)
 - Minutes of the f2f meeting (exposure data) - Malaga - [2017-02-07](#)
 - NSC task force suggested

- Prepare a [document](#) describing the vision and actions for handling the exposure data
 - Exposure data focus of the next WG4 meeting in April - Aracelli & Wouter may present
- Collection of published literature funded by NSC projects
 - ScienceOpen collection: <https://www.scienceopen.com/collection/EUNanoSafety>
 - Preprint for NSC Newsletter (spring 2017): https://figshare.com/articles/A_ScienceOpen_collection_of_NanoSafety_Cluster_publications/4725424

Community Spreadsheet Templates Task

- <http://www.nanosafetycluster.eu/working-groups/4-database-wg/tasks-2/2016-2-2.html>
- What's the best approach to proceed
 - Meeting in July at Duke U (Christine Hendren) <http://www.opentox.net/events/opentox-usa-2017>
 - Meeting U Birmingham Sep (ICEEN) and right afterwards the
 - NanoEHS US-EU CoRs will occur also in Birmingham

Ontology Task

- To continue working on the [eNanoMapper ontology](#)
 - To maintain the ontology, merge in patches, etc
 - Build server: <https://jenm.bigcat.maastrichtuniversity.nl/>
 - Github repository <https://github.com/enanomapper/ontologies/>
 - Involved: Egon
- Axel Mustad interested, we started discussion today with this task
- AM: How many project will support the ontology? Linking with ISO ? EW: it was presented (issues with license for ISO) AM: a [workaround](#) ...
- NJ: NanoReg2 and caLIBRAte are interested in using the ontology and matching terms to existing ontology entry. EW: using guidance in workshops
 - Two existing tutorials (one the using side):
 - <http://enanomapper.net/library/browsing-ontology>
 - <http://enanomapper.net/library/using-ontology>
- ACEnano project <http://www.acenano-project.eu/> includes tasks on ontology, therefore will contribute to this effort
- Camille de Garidel -Thoron: French project Labex Serenade is interested also in using ontology that will match with the other projects.
- Action: discuss a release schedule

Next WG4 meeting - April 11, 15 CEST
